Proficient in multiple programming languages. Strong problem-solving skills and ability to work effectively in a team-based environment. Impactful contributions that take organization to new heights.

LIBRARIES AND FRAMEWORKS

React Js, React Native, Next Js, Context API, Zustand, Redux, Redux toolkit, Thunk, MobX, Formik, Yup, Tailwind CSS, Radix-ui, Material-ui, Shad-cn, Bootstrap, Typescript, Git, NodeJs ,ExpressJs , Prisma, PostGres, MongoDB, Wordpress, Woo-Commerce, Elementor.

EXPERTISE

MVC Architecture, Micro-services, Stripe, Merchant Warrior, Google Maps APIs, Dockerization, AWS, React Hooks, Conditional Rendering and Validation, React-Query, cookies, Auth0 integration, Zod Validation, Bcrypt Hashing, Node-mailer, mailer-send, mailtrap, mailgun, Resend Email Integration, Data Encryption & Integrity, Aggregation Pipelines, Client side Rendering (**CSR**), Server Side Rendering (**SSR**), Static Site Generation (**SSG**), Single Page Application (SPA), Incremental Static Regeneration (ISR), Wordpress Theme customization, Child theme, Payment Integration, Site configuration, Optimization, Development, Deployment and maintenance.

EXPERIENCE

MERN Stack Developer, Micro Data Tech Solution – DHA, Lahore

July 2025 – Current

- Maintaining, Debugging and Developing both Client-side and Server-side for Full Stack Web Applications
- Performance Optimization, Query Optimization, Scheduling
- Third Party API Integration, Data Encryption and Integrity
- Interdependent APIs to support Micro-Service Architecture

Full Stack Developer, ZAHZ Technologies LLC

July 2024 – April 2025

- Designed responsive, user-friendly interfaces irrespective of browser and device compatibility
- Optimized website performance and speed using best practices and modern tools.
- Troubleshoot and resolved website errors, compatibility, and security issues.
- Integrated Payment Gateways and Installment system

Associate Software Engineer, Jangobyte Innovations - Lahore

August 2023 – June 2024

- Built and sustained responsive web applications with React.js and Node.js.
- Collaborated with cross-functional teams ensuring high-quality standards and timely project completion.
- Integrating Authorization and Authentication techniques to enhance application security Building.
- Integrating RESTful APIs based on Client's requirement with optimized Performance.
- Logic Building, Workflow tracking and Project Management to meet Project Deadlines.
- Implementing the MVC pattern to architect APIs using JavaScript frameworks that promotes code Performance and Application scalability

EDUCATION

University of Central Punjab, Lahore
Bachelors of Science in Software Engineering

2019 - 2023

Gulberg College for Boys, Lahore
Intermediate – FSC Pre-Engineering

2017 - 2019

RECENT PROJECTS

QUBE: Currently working on the backend of a multi-vendor e-commerce system enabling vendors and retailers to sell and purchase products. Implementing **role-based authentication**, **Sequelize ORM** with **PostgreSQL**, and building separate dashboards for **Super Admin** and **Vendors**.

UBUX: A scalable Australian e-commerce system with a unique Local & Global Points loyalty program, secure **billing** and **refund** management, and Merchant Warrior **payment integration**. Implemented multi-vendor support, batch processing, scheduled billing jobs, and an admin dashboard for **real-time monitoring**.

Psych Plus: A large-scale full-stack healthcare platform enabling patients to schedule appointments with nearby doctors. Contributed to the UI using **Radix UI**, **Zustand** for state management, and integrated **Google Maps API** for location-based doctor discovery.

Job Portal: Developed a job portal with dedicated interfaces for applicants and recruiters. Used **ShadCn** for UI, **Prisma + PostgreSQL** for database management, and **Zod** for data validation. Integrated **AWS** for storage, implemented **JWT-based authentication** and **data encryption**, and optimized UX with **cookies** and **caching techniques**.

ZAHZ Technologies: A dynamic portfolio website for showcasing and managing both product offerings and IT services. Implemented advanced customization features including child theme support, payment gateway integration, and an installment payment option for clients.
